PROFESSIONAL SUMMARY

Highly motivated Full Stack Developer with a proven track record in designing, developing, and deploying robust web and mobile applications. Specializing in creating efficient support systems and enhancing user experiences through innovative technological solutions. Adept at managing complex projects from inception to completion, consistently delivering scalable and high-performance applications. Eager to contribute expertise in modern front-end and back-end technologies.

WORK EXPERIENCE

FULL STACK DEVELOPER

BILLBO TECHNOLOGIES, VISAKHAPATNAM | August 2024 - June 2025

- Led full-lifecycle development of responsive web and mobile applications, enhancing user engagement and streamlining business operations.
- Spearheaded design and implementation of critical features for company websites, client-facing applications, and dynamic dashboards.
- Utilized React.js, React Native (front-end) and PHP (back-end) for optimal performance and cross-platform compatibility.
- Collaborated with cross-functional teams to define requirements, troubleshoot issues, and deliver high-quality software solutions.

FULL STACK DEVELOPER

LOGOJECH TECHNOLOGIES, VISAKHAPATNAM | February 2023 - June 2024

- Developed and maintained Billbo website, dashboard, and mobile application, ensuring seamless functionality and exceptional user experience.
- Implemented scalable solutions using React.js, React Native, and PHP, contributing to strategic objectives and operational efficiency.
- Participated in code reviews, debugging, and performance optimization to maintain high code quality and application stability.
- Worked closely with stakeholders to gather feedback and iterate on features, ensuring user satisfaction.

PROJECTS

BILLBO DASHBOARDS

PHP • MYSQL • HTML • CSS • JAVASCRIPT • BOOTSTRAP • JQUERY

Developed and maintained a comprehensive dashboard system for managing TV advertisement data in supermarkets, ensuring real-time data visualization.

- Designed UI/UX, developed backend APIs, optimized database queries, and integrated with advertising systems.

VPA ATTENDANCE APP

PHP • MYSQL • JQUERY • REACT NATIVE

Mobile application for Visakhapatnam Port Authority to streamline employee attendance management.

- Built cross-platform app, designed database schema, implemented secure authentication, and integrated with HR systems.

TECHNOISOLUTIONS.COM WEBSITE

PHP • MYSQL • HTML • CSS • JAVASCRIPT • BOOTSTRAP • JQUERY

Interactive and user-friendly website for a tech solutions provider, focusing on optimized UI/UX and scalability.

- Led front-end development, implemented dynamic content, integrated backend services, and optimized for SEO.

ELEPHANTS MONITOR APP

PHP • MYSQL • REACT NATIVE

Mobile application for real-time tracking and data management of elephants in Parthipuram forest, assisting wildlife conservation efforts.

- Built mobile app for data collection/visualization, developed backend for GPS tracking, and implemented data storage.

SVLT.IN WEBSITE

PHP • MYSQL • REACT NATIVE

Professional portfolio website for a construction business, showcasing services and projects to enhance client engagement and brand presence.

- Created responsive layout, implemented dynamic galleries and testimonials, and optimized for search engine visibility.

ALANTUR DASHBOARDS

REACT.JS • NODE.JS • UBUNTU

Developed support system dashboards for Alantur to solve organizational problems and enhance user experiences, focusing on monitoring tickets, performance, and feedback.

- Designed React.js front-end, developed Node.js backend for data aggregation/real-time updates, and configured Ubuntu deployment environment.
